Training

Pablo de Olavide University, Computer Engineering in Information Systems

2022 - 2026, SEVILLE

Third year student of Computer Engineering, with a solid foundation in various areas and ability to solve complex problems thanks to the self-taught knowledge acquired over many years developing software on my own, especially in the fields of **web development** (Frontend /Backend) and **cybersecurity** (experience violating real systems in production, reverse engineering, malware development, antivirus evasion...)

Languages

Native Spanish, Advanced English

C1 Advanced - Score 193, Cambridge University

JULY 2022

B2 First - Score 175, Cambridge University

OCTOBER 2021
